About Idhasoft

Idhasoft is a fastest growing technology company which provides IT Services and Software related solutions. Our customers span the United States, Europe and Asia.

We have a reputation for delivering high quality and reliable solutions “on-time” and “under budget”.

Our clients have great business expectations, and Idhasoft delivers great business results!

Business Intelligence (BI) is more than just a term, rather it is a set of concepts, methodologies and technologies to improve business decision making. BI enables organizations to improve business performance by leveraging information about customers, suppliers and internal business operations.

As companies match their BI strategy with business goals and objectives, Idhasoft brings a comprehensive approach to help companies rapidly achieve their BI deployment strategy. Our dedicated BI delivery team is comprised of experienced BI Solution Architects and deployment consultants possessing extensive industry experience in implementing solutions using the major BI technologies (SAP Business Objects, Oracle OBIEE & OBIA, Cognos, MicroStrategy and Microsoft). Our strong background in Data Warehouse solutions, coupled with our industry experiences in implementing various BI Systems; our BI Solutions Team has been helping customers across a wide variety of vertical industries to successfully implement BI solutions and realize the ROI and business performance value associated with successful BI deployments.
