

Press Release

Idhasoft announces 3 forthcoming acquisitions; setting up 2 new research facilities

Mumbai, Jun03, 2008. Idhasoft's latest move in the announced growth strategy of strengthening its global position in the healthcare market include plans to acquire two multinationals and one Indian company in the next three months. Two of the three acquisitions will be in US, one Clinical Organization and one Technology Company specialised in Pacs (radiology) techniques. Domestic acquisition comprises of a mid-sized clinical research organization.

Dr. Ramesh Subramaniam, Managing Director, Idhasoft, spoke to Pharmabiz about the company's current focussed plans, ventures & achievements.

The company has recently invested Rs.5 crore for setting up two new research facilities at Pune and Navi Mumbai. The construction work of both the facilities is over and it is likely to commence operation from September 2008.

Strategically extending its product portfolio in the segment, the company has invested Rs.25-30 crore for product development. Seven more to add to its current basket of 14 products. All the new products are expected to be commercialised by the end of financial year 2008-09.

Idhasoft – Healthcare Practice

Healthcare Practice headed by Satya Adari, has been successful in offering iHMiS (Idha hospital management information systems) solution to several hospitals in India. Its recent initiative of partnering and positioning of iHMiS along with IBM server hardware has been very successful and is being appreciated by all the hospital customers.

Idhasoft iHMiS - A unique web-based solution that addresses the needs of administrative, clinical and support service functions of hospital. The solution is customized to suit client requirements regardless of whether the facility is multi-sited or requires integration with e-health systems. This solution springs out of a thorough understanding of the healthcare industry. The solution addresses the needs of the hospital management system allowing you to focus on client's critical business.
